Year	Client / Organisation	Project
2026	Chartered Institute of Ecology and Environmental Management	Development of a Peatland Restoration course (launch March 2027).
2025-2026	Safety in Design	Supporting the design and development of an online training offer.
2022-2026	BMS World Mission	Support of the development of a Creation Stewardship policy and delivery of staff workshops on Creation Stewardship.
2026	Centre for Sustainable Energy	Advice and support on developing and maintaining the CSE online training portal
2018-2025	Via: UK Centre for Ecology & Hydrology (UKCEH)	Developing the UKCEH training offer and an e-learning portal from scratch.
2024	Bath and North East Somerset Council	Work to support GI strategy development, leading to the update and implementation of the Green Infrastructure Framework (2026).
2017-2024	TCPA	Green Infrastructure Resource Library a searchable database with over 2,000 items on natural capital, green space, green roofs, SUDS and all topics related to multi-functional Green Infrastructure (continued independent of funding).
2020-2021	World Meterological Organisation (via UKCEH)	Led an international team of four organisations on the learning design component of a $500k Hydrology Training Programme for the DMH, Myanmar.

Brillianto

Year	Client / Organisation	Project
2020-2021	Natural England	'Trialling, Monitoring and Evaluating Green Infrastructure Standards for England'. Resulting in the publication of the Green Infrastructure Framework - Principles and Standards for England (January 2023).
2019-2021	Oxfordshire County Council	Making the case for investment in Green Infrastructure in Oxfordshire - a detailed framework for strategic investment in GI, setting out the benefits of investment in GI, how GI can help tackle socio-economic challenges and sustainability issues, establishing likely returns on investment and proposing a range of implementation strategies.
2019	TCPA	6 best practice Green Infrastructure case studies for the Green Cities website, covering topics such as wellbeing and SUDS - targeting councillors and other decision-makers.
2019	GrünStattGrau	Translation of GrünStattGrau website for the Austrian umbrella organisation for greening buildings (green roofs and green walls).
2019	TCPA	green infrastructure and climate change factsheet -covering both mitigation and adaptation to climate change - guidance for the PERFECT EU Interreg project.
2019	Northumbria University	Working with Prof Alister Scott to develop pathways to impact for Green Infrastructure as part of the 'Mainstreaming Green Infrastructure' project
2018	TCPA	Multi Advantages of Green Infrastructure in Cities (MAGIC Matrix) guidance to help PERFECT EU partners to have a strategic, robust and focussed approach to developing their Action Plan and to communicate the benefits of Green Infrastructure.
2018	Valuing Nature Network	Collaboration on Demystifying Health - a guidance paper discussing the contested and complex concept of 'health' reflecting on the many different definitions and conceptualisations.

Brillianto

Year	Client / Organisation	Project
2017-2018	West of England Nature Partnership	Environmental Data review for the West of England - reviewing stakeholder engagement, communication activities, data management and volunteer engagement and exploring future business models for the Bristol Environmental Record Centre (BRERC) and the West of England Nature Partnership (WENP). This was effective as a catalyst for strategic focus.
2017	Via UKCEH	Translating Green Infrastructure research into decision making and practice - online survey and semi-structured interviews to scope issues, challenges and opportunities.
2017	Forest Research	Transfer of items from the 'Benefits of GI' database to the Green Infrastructure Resource Library to ensure key public sector guidance documents remain accessible to partners of the Green Infrastructure Resource Library.
2016	Ecosystem Knowledge Network	EKN Tool Assessor dissemination - development and delivery of two webinars presenting a selection of analytical tools, one webinar focussing on Green Infrastructure and SUDS, the other one on landscape-scale assessment & river catchments.
2016	Sussex Wildlife Trust	Worked with a consortium led by Sussex Wildlife Trust to develop a multi-million LIFE+ bid.
2016	GeoForschungsZentrum (GFZ)	German- English translation of key stakeholder survey messages on flood risk insurance, compensation programs, motivation for Flood risk mitigation measures, good practice, examples of business types most liable to flooding and global perspectives and examples
2016	Campaign to Protect Rural England	Conference Speaker: Green Infrastructure- Making a contribution to the challenges we face - Positive Planning Seminar
2016	Valuing Nature Network	Collaboration on Demystifying Economic Valuation - guidance covering the main issues, questions and principles surrounding economic valuation and is designed as an overview for those new to economic valuation.

Brillianto

Year	Client / Organisation	Project
2015	Oxfordshire LEP (via Wild Oxfordshire)	I was instrumental in securing funding and developing the development of the Oxfordshire Strategic Environmental Economic Investment Plan (SEEIP) - covering proposals for many Green Infrastructure and biodiversity projects
2014	Northumberland Wildlife Trust	Support of development of 'Red Squirrels United' LIFE bid - successful bid (c€1.6m). This was foundation for another successful bid to HLF (c£1.6m). Project launched 2016.
2011-2013	Via Natural England	I developed an approach to writing evidence-based Green Infrastructure and green space case studies and wrote or contributed to several case studies: St Lawrence Park, Byker, Newcastle Wynyard Woodland Park, Stockton Blyth Green Travel Plan Tees Heritage Park, Stockton Easington Colliery Concept Statement
2009-2011	via Natural England	I led a project to develop the landscape-scale partnership 'Limestone Landscapes' and secured a major HLF funding bid to implement it. Project delivery 2011 - 2016.

Note: I did projects notated with “via” as part of full-time employment for an organisation. I include them here to show the full range of work experience I have.
